Google Sketchup Assignment - Town

SOL

- C/T 6-8.3
- C/T 6-8.4
- C/T 6-8.5

Objective: be able to create a simple 3d drawing of a town using Google Sketchup and use the following tools:

- rectangle
- push/pull
- line
- orbit
- components

Use Google Sketchup to build a town. Your town should contain the following:

1. 3 streets with sidewalks (use the line tool to draw these)
2. police and fire station
3. church
4. small park
5. 10 businesses
6. town hall
7. people
8. cars
9. trees
10. street lights

You may use items in your materials and components folders, but **you may not use Google Warehouse.**
